Join Pima Master Gardeners and Trees for Tucson for a fun, hands-on tree care training program. Learn the basics of trees from expert instructors, connect with other tree lovers, and be inspired to become an urban forest tender in your community on your way to becoming a Certified Tree Tender.

This multi-day course will give you a solid understanding of how trees function and what they need to survive and thrive. You will learn about the benefits of urban trees and the challenges they face. Our expert instructors deliver engaging indoor and outdoor sessions that will give you skills you can apply immediately in your own yard and/or neighborhood.

Through five three-hour sessions, you will learn about urban forestry practices; tree biology and health; proper planting, pruning, and maintenance; and how to lead communities in organizing tree plantings and tree care. The Tree Tenders training program empowers concerned residents to make dramatic strides towards restoring and caring for the tree canopy in their communities.

$100.00 covers 5-session training and materials

Pre-registration required; Class sizes are limited

Training will be held from 8:30am to 11:30am on Feb. 20th & 27th and March 5th, 12th & 19th at: The Wetstone Classroom, 4210 N. Campbell: the small building behind the main Pima County Cooperative Extension building.
