25 shells and all
safety equipment

Please preregister
for your preferred flight time

<https://4h.zsuite.org/event-registrations/62427>

Interested in shotgun shooting? Tried it once and want to try it again?

If your 4-Her has wanted to try shotgun shooting or it's been a while and they want to try it again, please join us at Ben Avery Clay Target Center **TRAP RANGE 5** for an introduction to shotgun shooting fundamentals. The clinic will start with the basics of range safety, the parts of a shotgun and shells and then when everyone is comfortable, move to the trap range, **FIVE SHOOTERS AT A TIME**, to experience what it's like to shoot at clay pigeons.

4-H certified shotgun instructors will be leading the clinic and supported and supplemented by experienced current 4-Hers so the experience will be both safe and personalized.

Open to any registered 4-Her age 9 or older as per the facility's rules.

Shotguns and ammo in a variety of sizes plus eye and ear protection will be provided, no need to bring your own.

**Sunday, Oct. 18
8 a.m. - 12 p.m.**
