CLOVERBUD CORNER

Teaching Activity

- \$ Collect three matching containers for each child or ask them to bring them from home. These can be margarine tubs, coffee cans with plastic lids, small boxes, or something similar. Even a zip closing plastic bag will work.
- **\$** Provide old magazines and scissors or use stickers, colorful markers, and crayons to decorate each container.
- \$ Help them label one container with "SAVE," one with "SPEND" and one with "GIVE."
- \$ Ask them to add their name to each container.
- \$ Allow them to take these containers home. Give each member a note for the parents to explain what you have been discussing.
- \$ Encourage them to talk with their parents about how they obtain money and how they will divide it to put some in each container.
- \$ After two months, ask members to report at your 4-H club meeting how they are using these containers.

Note for 4-H Cloverbud parents:

Dear 4-H Cloverbud parent:

As part of our 4-H meetings, we have been talking about money. We focused on the importance of "giving, spending, and saving." The containers your Cloverbud has with them today were made so they could practice what we have discussed. I encourage you to talk with your child about what they learned and how they can put these principles into practice. We will ask them to tell us what they are doing at a future meeting. Seeing a parent practice these three principles is a great way for them to learn money management skills. If you have any questions, please let me know. Thanks, as always, for helping us extend our 4-H club lessons into daily life activities.

Helping Others

Work with your 4-H group to plan a field trip to a place where you can give of your time or money.

* Think about possible places to visit. Ask an older 4-H member to list them on a paper for everyone to see, then agree on one.

Possibilities:

- ⇒ Ronald McDonald House
- ⇒ A food pantry at a church or public building
- ⇒ Goodwill or Salvation Army store
- * Talk about ways your group could earn money to share with this program. If raising money isn't possible, come up with other ways to help (such as collecting school supplies, food or clothing). Conduct your activity.
- * If possible, actually visit the location to deliver the money or other items. Or invite someone from the facility to come talk with your 4-H group.

BEEF EDUCATION

Know Your Beef

Identifying Beef Breeds

•,,,,,,,,,,,,

Beef Project Skill:

Showing beef cattle

Life Skill:

Making decisions

Education Standard: Success Indicator:

NS.K-4.3 Life Science

Identify fifteen breeds of beef cattle.

How many beef breeds do you know? More than 50 beef breeds are raised in the United States today. Each breed has strong and weak points. Some breeds grow more quickly than others. Some breeds are large, while others are smaller framed. You'll want to know the traits of many breeds and your farm's needs before selecting a breed to raise. When you have completed each of these activities and discussed the questions in Barn Talk with your helper you will be able to recognize these breeds and know something about them.

From the breeds listed in Facts on pages 7 and 9, match each breed to its description. Then complete the Word Find. When you have completed these activities, and discussed the questions in Barn Talk with your helper you will be able to recognize these breeds and know something about them.

Beef Descriptions

Solid black polled breed that originated in Scotland The in Scotland. They are the most numerous cattle in the U.S. and are noted for high quality

carcasses. White faced, red cattle have horned blood lines and

polled bloodlines. They are known for their mothering and foraging ability plus their very docile disposition. Horned and polled bloodlines are under one breed association. They are the second most numerous breed in the U.S.

Originally called Durhams, this British breed can be red, white or roan in color. :rhey were used for milk production.

Large framed, red and white in color from France. This is the largest French breed of cattle. Originated from bree.ders in the Maine and Anjou river valleys:

BEEF EDUCATION...continued

Barn Talk

Shooting the Breeze

- How can you tell the breeds apart?
- What new breeds did you discover?

Show Me the Beef

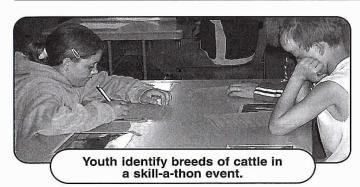

- Which three breeds are popular in your area? Why?
- How would the efficiency of cattle production be affected if producers could only use breeds from one country... say Scotland? (Write your answer to this question here.)

Where's the Beef?

- What beef breed do you and/or your family raise and why?
- How can you use this information in a livestock judging contest?

Beef's Future

 What characteristics are most important to you in deciding what breed you want to raise?

Acknowledgments: Breeds of Cattle by Herman R. Purdy, completed by J. John Dawes, Chanticleer Press, Inc., New York. Activity written by Josh Merrill.

Resources: Breed Association Web sites (see Beef Resources page).

Breed Origins

Angus	(Scotland)
Beefalo	(U.S., California)
Belgian Blue	(Belgium)
Charolais	(France)
Chianina	(Italy)
Gelbvieh	(Austria)
Hereford	(England)
Limousin	(France)
Murray Grey	(Australia)
Piedmontese	(Italy)
Pinzgauer	(Germany)
Polled Hereford	(U.S., Iowa)
Santa Gertrudis .	(U.S., Texas)
Scotch Highland	(Scotland)
Senepol	. (Virgin Islands)
Simmental	(Switzerland)
Zubu	(India)

- Research and write a short paper on your favorite beef breed.
- 2. Choose three breeds from different areas of the world. Study their characteristics, especially relating to the environment they thrive in. Share with your helper how producers blend these differences to make cattle work better in your environment.
- 3. Collect ten pictures of beef cattle breeds. Make a matching game to play with your family or friends. Use separate cards so the breed, three characteristics of the breed and where it originated can be matched. You can find great pictures in beef magazines or by writing to breed associations.
- 4. Talk to a cattle producer and find why the breed they raise was chosen. Give a report on what you find to your family or group.
