# Let's Grow Vegetables!

Let's identify seeds using a handy seed chart.

Materials: White Paper Plate  
Ruler  
Glue  
Markers  
8 Kinds of Seeds (Example: Bean, Pea, Spinach, Corn, Radish, and Cucumber)

Procedure:

1. Divide the paper plate into eighths, like a pie. First divide the plate in half, then in fourths, followed by eighths. Draw lines using a marker and a ruler.
2. In each segment, glue a seed, label it, and draw a picture of the vegetable.

It's now time to plant some seeds!

Materials: Seeds (leftover from the handy seed chart)  
Potting Soil  
Paper Egg Carton  
Water

Procedure:

1. Remove the lid from the egg carton and fill each section about  $\frac{3}{4}$  full with potting soil.
2. Place the seeds in the soil according to the package directions.
3. Place the egg carton in a location of natural light and water the seeds regularly.
4. Watch your garden grow! As the seedlings get larger, transplant them into your garden or larger pots by cutting the egg carton segment and planting the whole part in the ground.
