When using the Bone Box please follow the guidelines as stated below:

You have permission to copy any of the material in the teacher's guide and to use the contents of the Bone Box for your classroom use only. If another teacher would like to use any of the materials, please have them write or call the Arizona Game and Fish Department to arrange loan. The animal guides are yours to give to students or to keep as a classroom set.

We want the hides and skulls to be touched by students and we also know that accidents will happen. But please remember that the skulls are fragile and difficult to replace so please be careful when handling them. If skulls should become broken, please save all the pieces and notify us when the box is returned.

The rubber animal tracks are expensive. Please be sure to return all of the tracks you received.

The Arizona Game and Fish Department hopes that you and your students enjoy the Bone Box and the activities that go along with it. If you have any questions, please give me a call. Thanks for your interest in teaching about Arizona's wildlife.
