

Markanna Moore

2010-2016 EXPO Participant.

My eight years in 4-H have made an enormous impact on my character, my abilities, and my career goals. 4-H has helped me develop leadership skills through such opportunities as being a Jr. Leader and a Club Officer.

I have spent four years in the Leadership Project, serving as a Jr/Teen Leader in the Beef, Horse, and Shooting Sports projects. My experience in these leadership positions has empowered me to reach my full potential in all areas of my life. I gained public speaking skills, and the ability to organize a group to meet its goals, and begin to seek out leadership roles in my other extracurricular activities. I intend to

pursue a master's degree in business administration, with the hope of someday incorporating a leadership role into my career. My involvement in 4-H has set me up to successfully reach this goal by teaching me perseverance and effective goal setting.

Participation in EXPO has offered me many rewards. The ability to sell my sheep and beef projects at a premium, along with the multiple scholarships received, has been a huge financial help. I have applied every cent towards my college education. This, combined with other academic scholarships has put me on track to graduate from the University of Arizona debt free. I am forever grateful to EXPO, and its supporters, Thank You.
