Drought Tolerant Native Plants for the Verde Valley

Compiled by: Jeff Schalau, Agent, ANR, University of Arizona Cooperative Extension, Yavapai County; Dusty Eiker, Horticulturalist, Mountain West Landscape Resources and Horticoach.com; and in partnership with the Arizona Department of Water Resources.

Plants are appropriate for North Central Arizona, elevation: 3,000 – 4,500 feet.

Most require supplemental irrigation when used as landscape plants.

* Native plant, generally unavailable in nurseries but found in many undisturbed areas.

** Native to nearby areas but not to the Verde Valley.
