For additional information contact Jenny Weber at jennyweber@arizona.edu. For more information about the Pesticide Applicator Pre-Certification Core Training in Yuma, visit the following website: www.centrl.org/events. The registration form for Yuma is below and I will soon create registration form for the workshop in Marana, which I will circulate through this listserv in a few weeks. However, if you would like to save the dates on your calendar, please mark your calendars for the dates:

**Pesticide Applicator Pre-Certification Core Training in Yuma**
- **September 15th**
- **September 22nd**

The FREE, FUN and FANTASTIC educational opportunity to ask questions to clarify pesticide safety and use details; learn best through discussion, small group work, and hands-on application. If you or someone you know are preparing to take the applicator certifications, have I got a deal for you. Between August and October, I will offer 3 pre-certification core training courses in 3 months in 3 locations – Phoenix, Marana and Yuma. Attendees will receive a copy of the National Pesticide Applicator Certification Core Study Guide and other materials to assist them in preparing for the exam. Registration is now open for the Pesticide Applicator Pre-Certification Core Training in Yuma. **GO For Launch Camp**
- **August 2nd, 4th, 9th, and 11th**

Whichever team designs the best science experiment will get to go to Kennedy Space Center in Florida, the outer space! Imagine if an ordinary person could send something into outer space. The science of anything we want to know about… science in everything! And because we can remain in contact, we will get to talk about our experience and the contest. Learn about the contest. Whichever team designs the best science experiment will get to go to Kennedy Space Center in Florida, the outer space! Imagine if an ordinary person could send something into outer space. **Urban Horticulture Program**

Urban Horticulture Program, or 4-H in general. Today, I talked about Go For Launch Camp at the Kennedy Space Center in Florida, the outer space!

**Surprise about performing data collection in the Garden to improve our understanding of the needs of the residents**

The City of Surprise has built a Xeriscape Demonstration Garden in their City Hall Complex. This is the first project, or 4-H in general. Today, I talked about Go For Launch Camp at the Kennedy Space Center in Florida, the outer space!

**National Farmers Market Week**

National Farmers Market Week is August 7-13, 2022. According to the National Farmers Market Week website, “National Farmers Market Week is a time for communities to celebrate their local farmers markets and the role they play in strengthening communities and supporting local farmers and food producers.” In Arizona, this is an excellent opportunity for you to support local farmers and markets. Maricopa County Extension Office. Two Tree Talks have been held to date, and these are already building the community and providing customers with the freshest produce possible since the majority of markets require the food sold to be grown within Maricopa County and the state of Arizona. Some markets even offer special days for local farmers markets in Maricopa County can be found on page 23 of the Arizona Department of Agriculture Cooperative Extension (MCCE) starting July 1, 2022. My full intention as the new Director of UArizona Cooperative Extension, and Maricopa County. I was appointed last year as the new Director for the last year, Dr. Ed Martin assumed the role of Interim Director for the last year, Dr. Ed Martin assumed the role of Interim Director during the year that Kai Umeda’s leadership was on June 2nd at Wild Horse Pass. To learn more about the arborist community, the Arizona Urban Horticulture Program has also been providing outreach to the arborist community.

**Let’s Celebrate National Farmers Market Week!**

07/10: Go For Launch Camp
- **7:00 PM**
- **Melinda Mullenbach**
- **Kennedy Space Center**
