

Project Inventory

Note: *This inventory list is designed to be a tool to help you identify resources used in your project. This is only an estimate of the value of all items listed in the inventory. You do not need to consider depreciation.* Record here food, fabric, materials, equipment, supplies, animals, plants, feed, fertilizer, etc., on hand at the beginning and close of the project. All materials, food, fabric, plants, animals and equipment bought after project begins should be listed under Expenses. If you sell something from your inventory, be sure to list it under Income.
