Advanced Smartscape: Irrigation

Advanced Smartscape: Irrigation builds upon the basic Smartscape course by offering in-depth training for landscape professionals on the design, installation, maintenance, and management of drip and sprinkler irrigation systems. The course stresses irrigation efficiency and wise water use in turf and landscapes.

Due to the rigorous pace of the classes, completion of the Smartscape course is a prerequisite to register for Advanced Smartscape. Contact the Program Coordinator for a possible waiver.

The following hands-on activities are included in the classes:
- Smart controller programming
- Irrigation audit
- New technologies demonstration
- Friction loss calculations
