Free Arizona Domestic Well Owner’s Workshop

Saturday, February 24, 2018
1:00 – 4:00 PM
Concho Elementary School Community Room

Arizona has an estimated 90,000+ wells across the State. Private wells provide water supply to an estimated 160,000 households or about 5-7% of the state’s population. Your county has many domestic wells that provide water to homes. It is important that well owners are knowledgeable on how to care and maintain their well and have a basic understanding of issues that come with owning a well. The information will help the owner to provide safe drinking water and protect their investment.

Speakers:
• Janick Artiola, Ph.D.: University of Arizona Cooperative Extension Water Quality Specialist. jartiola@email.arizona.edu
• Gary Hix, RG: Past President of the Arizona Water Well Association

This workshop will cover water sources, regulations, domestic well maintenance and water treatments topics, including:
• Introduction to Arizona Geology and aquifers
• Basic domestic well facts
• Regulations, Well registration, County issues
• Routine well operation and maintenance
• Naturally occurring contaminants
• Aquifer vulnerability
• Well head and source water protection
• When to sample and what to sample for
• Home water options for your well water

The information presented at the workshop comes from a booklet titled: “Arizona Well Owner’s Guide to Water Supply” University of Arizona Cooperative Extension publication #AZ1485.” Hard copies will be given to all attendees.

In addition, a USB thumb drive will be given to all attendees with electronic versions of:
-Well Owner’s Guide
-Arizona Know Your Water
-Well Owners Video Series
and many other water related Extension Publications.

RSVP to Mike Hauser at 928-337-2267 or mhauser@ag.arizona.edu by Friday, February 16, 2018
