Inspector – Need To Know

1. Duty and Authority of the Inspector
2. Single Family Residential NOT Inspections Conventional Type 4 and Conventional Type 1.09 (3000 GPD>= Design Flow)
   a. ETHICAL INSPECTION PRACTICES
   b. System Treatment Technology Specific Operational Criteria
   c. Type 4 Versus Type 1 Systems
   d. General calculations relative to system inspection.
   e. Code requirements relative to operational status
   f. O and M History
   g. ETHICAL BUSINESS PRACTICES
3. Commercial or Other than a Single Family Residence NOT Inspections Conventional Type 4 and Conventional Type 1.09 (3000 GPD>= Design Flow)
   a. ETHICAL BUSINESS PRACTICES
   b. System Treatment Technology Specific Operational Criteria
   c. Type 4 Versus Type 1 Systems
   d. General calculations relative to system inspection.
   e. Code requirements relative to operational status
   f. O and M History
   g. Wastewater Strength and other characteristics e.g. loading rate …. Etc.
   h. ETHICAL BUSINESS PRACTICES
4. Single Family Residence Alternative Systems NOT Inspections Type 4.X (3000 GPD>= Design Flow)
   a. ETHICAL BUSINESS PRACTICES
   b. Technology specific operational criteria
   c. General calculations relative to system inspection.
   d. Code requirements relative to operational status
   e. O and M History
   f. Evaluation of Treatment and Disposal Works Functionality
5. Other Operational Inspections such as 4.23 compliance and complaint driven.
   a. Discretionary Operational Conditions
   b. Compliance Annual Reporting Inspections (E.g. 4.23 Inspections)
   c.
