**NAWT Inspection Training & Certification**

Did you know that you are now required to attend an ADEQ-approved course **before** initiating the real estate inspection? Your successful completion of the 2-day ADEQ-approved course and certification test will result in your name being listed as a certified inspector with both NAWT and ADEQ. This list is posted on the NAWT website ([www.nawt.org](http://www.nawt.org)) and visited by property owners and real estate agents engaged in the Arizona Transfer of Property Inspection Program under AAC R18-9-A316. This course is a **pre-requisite for all University of Arizona Onsite Wastewater Treatment courses.** Other Certification: This workshop qualifies for 16 professional development hours (PDHs) and 13.5 contact hours for Arizona Registered Sanitarians.

**NAWT Onsite Installer Certified Professional Training**

Currently the NAWT program is still a program covering the following topics: Planning and site evaluation Installing sewage tanks and ATUs; Installing below ground systems; Installing above ground systems; Installing pumps and pump stations; Installing media filters. Additional material has been added incorporating some of the CIDWT developed installer materials. This includes information on surveying and OSHA soil evaluation.

**Intro to Design of Onsite Wastewater Treatment Systems**

This is a 2-day course on designing onsite wastewater treatment and dispersal systems using Arizona regulations primarily for gravity distribution and residential applications. A homework assignment will be used to provide practical application of material learned in the workshop. Please bring a calculator and writing implement. Prerequisite: All participants will need to have completed both the NAWT Inspection Training & Certification and Soils & Site Evaluation courses. Other Certification: This class qualifies for 16 CEU hours for maintaining NAWT certification, 16 Professional Development hours (PDHs), and 16 contact hours for Arizona Registered Sanitarians.

**Soil & Site Evaluation for Onsite Wastewater Treatment Systems**

This is a 2-day, **ADEQ-approved** course covering soil and site evaluation for onsite wastewater treatment systems. Successful completion of the course completion exam will result in your name being listed as a Registered Soil & Site Evaluator for ADEQ. The course will be conducted both in the classroom and in the field. Topics to be covered include: water movement and acceptance; soil treatment; soil evaluation including description of texture, color, structure, and consistence; and site evaluation procedures. **Prerequisite:** You must have participated in a NAWT Inspection Training & Certification workshop to attend this course. Other Certification: This workshop qualifies for 16 professional development hours and for 14.4 hours of contact hours for Arizona Registered Sanitarians.
