Common Name	Botanical Name	Comments
Poppy, California	<i>Eschscholzia californica</i>	
Sweet Alyssum 'Royal Carpet'	<i>Lobularia maritima</i>	Spreading mat.
Bluebells, Desert	<i>Phacelia campanularia</i>	Native self-seeding annual.
Dogweed, Dysodia	<i>Thymophylla pentachaeta</i>	
Cactus, Rat Tail	<i>Aporocactus flagelliformis</i>	
	<i>Astrophytum asterias</i> 'Super'	
Cactus, Bishop's Cap, Super Kabuto	<i>Kabuto</i>	
Cactus, Bishop's Cap	<i>Astrophytum capricorne</i>	
Cactus, Crested, Old Man	<i>Austrocylindropuntia vestita cristata</i>	
Cactus, Saguaro	<i>Carnegiea gigantea</i>	
Cactus, Silver Torch/Snow Pole	<i>Cleistocactus strausii</i>	Slender, erect, grey-green columns grow in clumps. Older plants produce up to 3 inch long cylindrical flowers that protrude horizontally from the columns. Bolivia & Argentina
Cactus, Cholla, Buckhorn	<i>Cylindropuntia acanthocarpa</i>	An open and branching woody cactus. It has gray-green stems, also called "joints", with nodules. Each nodule has a cluster of stiff spines. The fruits are oval shaped, dry, and covered with long barbed spines.
Cactus, Arizona Pencil	<i>Cylindropuntia arbuscula</i>	Low Sonoran Desert to 3000'. Bronze sepals; edible fruit used by Papago Indians.
Cactus, Cholla, Jumping/Teddy Bear	<i>Cylindropuntia bigelovii</i>	architectural
Cactus, Cholla, Jumping/Hanging Chain	<i>Cylindropuntia fulvida</i>	
Cactus, Cholla, Desert Christmas	<i>Cylindropuntia leptocaulis</i>	The only local cholla with winter fruit, looks like a small shrub with pencil-thin joints and red fruitlet it from November to March . When flowers fall off in May, little green fruit begins to grow, which changes to red in fall.
Cactus, Cane Cholla	<i>Cylindropuntia spinosior</i>	
Cactus, Cholla, Staghorn	<i>Cylindropuntia versicolor</i>	architectural
Cactus, Barrel, Golden	<i>Echinocactus grusonii</i>	The most distinctive of barrel cacti with yellow spines & radiant flowers embedded in the wooly stem apex.
Cactus, Barrel Cactus	<i>Echinocactus pilosus</i>	
Cactus, Hedgehog, Strawberry, Engelmann's	<i>Echinocereus engelmannii</i>	
	<i>Echinocereus longisetus</i> ssp. <i>DeLaeti</i>	
Cactus, Hedgehog	<i>Echinocereus pentalophus</i>	Large flowers; cascading growth habit. No winter water
Cactus, Ladyfinger or Allicoe	<i>Echinocereus rigidissimus</i>	
Cactus, Rainbow Hedgehog	<i>Echinocereus subspinosus</i>	
Cactus, Argentine Giant	<i>Echinopsis candicans</i>	
Cactus, Peanut	<i>Echinopsis chamaecereus</i>	Argentina native
Cactus, Argentine Hedgehog, Red Torch	<i>Echinopsis huascha</i>	AKA Red Torch. Formerly Tricocereus. Creeping unless supported and tied.
Cactus, Pink Easter Lily	<i>Echinopsis</i> 'hyb. 'Easter Lily'	Formerly Trichocereus. Fast-growing columnar cactus w/ lg. showy funnel-shaped pink flowers open a single day.
Cactus, San Pedro	<i>Echinopsis pachanoi</i>	Formerly Trichocereus. Multiple stems bunch from the ground.
Cactus, Golden Torch	<i>Echinopsis spachiana</i>	Formerly Trichocereus. Multiple stems bunch from the ground.
Cactus, Torch	<i>Echinopsis spachiana</i>	Large white fragrant flowers
Cactus	<i>Echinopsis lascauirensis</i>	Bolivia native at 6000' plus to 15' tall.
Cactus, Cardon Grande/Argentine Golden	<i>Echinopsis terscheckii</i>	Formerly Trichocereus terscheckii
Cactus, Peruvian Old Lady	<i>Espositoa melanostele</i>	Slow grower. Erect, columnar stems branch at base to form a clump. Nocturnal bloom.
Cactus, Barrel, Fire	<i>Ferocactus gracilis</i>	A globular to cylindrical solitary cactus. Ribs: About 24; Central spines: 7 to 13 reddish-brown, < 5mm wide, 2.5-4 cm long. Radial spines: 5 or 6. Flowers in Summer are diurnal red or usually golden yellow with reddish mid-stripe. Stem: > 41" to 68" tall x 14" W
Cactus, Barrel, Fire	<i>Ferocactus gracilis</i>	
Cactus, Barrel, Crow's Claw or Devil's Tongue	<i>Ferocactus latispinus</i>	Solitary globose, red or white radial spines, 13 ribs.
Cactus, Barrel, Mexican Fire	<i>Ferocactus pilosus</i>	
Cactus, Barrel, Fire	<i>Ferocactus rectispinus</i> x <i>wislizenii</i>	
Cactus, Prickly Pear, Pancake	<i>Ferocactus robustus</i>	Clumping & colonizing in 3 foot cone-shaped mounds that form on top of each other. Will scar from water & sun.
Cactus, Barrel, Mexican Fire Barrel	<i>Ferocactus stanselii</i>	
Cactus, Barrel, Fishhook	<i>Ferocactus wislizeni</i>	
Cactus, Queen of the Night	<i>Harrisia luberti</i>	Underground tuber. Blooms one night. Attracts night pollinators.
Cactus, Dragon Fruit, Strawberry Pear	<i>Hylocereus</i> sp.	Night bloomer. Freely branched, viney growth.
Cactus, Fence Post, Mexican	<i>Lemnaicocereus marginatus</i>	Mexico
Cactus, Pincushion	<i>Mammillopsis senilis</i>	AKA Mammillaria senilis. Grows at 9000' in pine forest; needs acidic well-drained soil. No watering in winter.
Cactus, Pincushion	<i>Mammillaria amplexicaulis</i>	Flattish stems cluster or clump.
Cactus, Lady Fingers	<i>Mammillaria elegans</i>	
Cactus, Pincushion	<i>Mammillaria grahamii</i>	
	<i>Mammillaria montensis</i> / <i>M. standleyi</i>	reddish spines
Cactus, Pincushion	<i>Mammillaria mystax</i>	
Cactus, Owl Eyes	<i>Mammillaria parkinsonii</i>	eye catching
Cactus, Pincushion	<i>Mammillaria petersonii</i>	Clusters. AKA Apozolensis, Huiquerensis, Obscura.
Cactus, Blue Flame	<i>Myrtillocactus geometrizans</i>	
Cactus, Balloon	<i>Notocactus magnificus</i>	Native to S. America
Cactus, Ball	<i>Notocactus rosolutes</i>	Solitary ball; depressed crown w/wh wool. Bicolored salmon-pink silky petals with yellow center.
Cactus, Ball 'Albissimo'	<i>Notocactus rubiweberi</i>	Expressive long, very wht & soft spines. Spiral of spines in columns. Diurnal.
Cactus, Prickly Pear, Cowboy Red Whiskers	<i>Opuntia aciculata</i>	
Cactus, Prickly Pear, Beavertail	<i>Opuntia basilaris</i> 'Beavertail'	Clumps to 5 feet wide. Moths, birds. Native to CO & Mojave deserts.
Cactus, Prickly Pear, Baby Rita/Purple	<i>Opuntia basilaris</i> var. <i>Baby Rita</i>	Small padded, purple skinned prickly pear. Foliage intensifies in winter. Loaded with spring blooms.
Cactus, Cholla, Teddy Bear	<i>Opuntia bigelovii</i>	architectural
Cactus, Prickly Pear, Spiny	<i>Opuntia camanchica</i>	
Cactus, Prickly Pear, Engelmann's	<i>Opuntia engelmannii</i>	Fruit and pads or nopales are used for foods.
Cactus, Prickly Pear	<i>Opuntia engelmannii</i> v. <i>alta</i>	
Cactus, Prickly Pear, Cow's Tongue	<i>Opuntia engelmannii</i> v. <i>linquiformis</i>	Upright nature and elongated, blue-green pads, which can exceed 2' in length. Fast grower. Tasty fruit with a tart, melon flavor.
Cactus, Prickly Pear, Indian Fig	<i>Opuntia ficus-indica</i>	Thick, green, oval-shaped spineless pads & a vigorous upright stature and a trunk up to 14" diameter. Fruit and pads are edible and cultivated. Regular water in the hot season.
Cactus, Prickly Pear	<i>Opuntia macrocentra</i>	
Cactus, Prickly Pear, Bunny Ears	<i>Opuntia microdasys</i>	Yellow glochids
Cactus, Prickly Pear, Woolly Jacket	<i>Opuntia pailana</i>	
Cactus, Prickly Pear, Isla Magdalena	<i>Opuntia pycnantha</i>	S. Baja California & Isla Magdalena. Fruits in summer.
Cactus, Prickly Pear, Quimilo	<i>Opuntia quimilo</i>	A much branched shrub or tree-like cactus with distinct trunks up to 14" in diameter. Spines absent on the young segments, appearing sporadically on the older segments, Opuntia quimilo is one of three known gynodioecious cacti - female flowers on one plant and hermaphrodite flowers on another plant.
Cactus, Prickly Pear	<i>Opuntia</i> sp.	very mean
Cactus, Prickly Pear, Red	<i>Opuntia</i> sp.	
Cactus, Prickly Pear, Pencea	<i>Opuntia sulphurea</i>	Long, wavy white spines. Clumping spreader! NW Argentina.
Cactus, Prickly Pear, Baby Rita/Purple	<i>Opuntia violacea</i> 'Baby Rita'	
Cactus, Old Man of the Andes	<i>Oreocereus celianus</i>	
Cactus, Old Man	<i>Oreocereus pseudofossulatus</i>	
Cactus, Old Man of the Andes	<i>Oreocereus trollii</i>	Clumping columnar cactus with fine, completely enveloping hair
Cactus, Mexican Fence Post	<i>Pachycereus marginatus</i>	
Cactus, Senita or Whisker	<i>Pachycereus schottii</i>	AKA Lophocereus schottii. Flowers bloom at night on "furry" top regions of stems
Cactus, Totem Pole	<i>Pachycereus schottii</i> v. <i>monstrosus</i>	Spineless, with a waxy coating on the stems.
Cactus, Golden Ball	<i>Parodia leninghausii</i>	
Cactus, Balloon	<i>Parodia magnifica</i>	
Cactus, Pinecone	<i>Pelecophora strobiliformis</i>	
Cactus, Night-Blooming cereus; Queen of the Night	<i>Peniocereus oreogii</i>	night bloomer, flower lasts one night, fragrant
Cactus, Blue Candle	<i>Pliosocereus azureus</i>	
Cactus, Toothpick or Argentine Toothpick	<i>Stereosonia coryne</i>	Columnar, grayish-green stems with distinctive toothpick-like, grayish-white spines. Many arms at maturity. Night blooming. In late winter, the cactus develops a tanqy, lemon-flavored fruit with black seeds. Entire fruit can be eaten if cooked. Monotypic taxon.
Cactus, Pine Cone	<i>Tephrocactus articulatus</i>	
	<i>Tephrocactus articulatus</i> v. <i>papyracanthus</i>	
Cactus, Paper Spine or Chinese Fingernails	<i>Tephrocactus bicolor</i> v. <i>bicolor</i>	AKA Opuntia papyracantha. Spines on pinecone-shaped segments are flattened, flexible, raffia-like. Suckers profusely or root any segment.
Cactus, Glory of Texas	<i>Trichocereus candicans</i>	Blooms in a combination of pink, red, and white and almost as wide as the plant itself!
Cactus, Argentine Giant	<i>Trichocereus hybrid</i>	night bloomer, flower lasts one night
Cactus, Trichocereus White		
Cactus, Trichocereus Flying Saucer	<i>Trichocereus hybrid</i> 'Flying Saucer'	Beautiful extra large flowers up to 8 inches in diameter. Single stem plants 10-12 inches tall. Night bloomer, flower lasts two days.
Mint	<i>Mentha</i> sp.	
Rosemary, Trailing	<i>Rosmarinus officinalis</i> 'Prostrata'	
	<i>Rosmarinus officinalis</i> 'Tuscan Blue'	
Rosemary, Tuscan Blue	<i>Ageratum conyzosum</i>	AKA Mist Flower, Texas or Butterfly
Mist Flower, Gregg's, Floss Flower	<i>Asclepias anastifolia</i>	
Milkweed, Arizona	<i>Asclepias curassavica</i>	Butterfly Weed, 'Silky Gold', Blood Flower
Butterfly Weed, Bloodflower 'Silky Gold'		

Milkweed, Desert	<i>Asclepias erosa</i>	Monarch larval host; wide leaves. Yuma Co. native @ 0- 1500 ft.
Milkweed, Pineleaf or Narrow Leafed	<i>Asclepias linaria</i>	AZ evergreen w/ 2" cluster blossoms. Queen & Monarch larval & nectar food. No pruning.
Milkweed, Desert	<i>Asclepias subulata</i>	Upright cluster of wandlike stems. 2" clusters of creamy yellow flowers at tips, then pairs of 3" long ornamental, horn-shaped seedpods that split to launch fluffy seeds.
Milkweed, Butterfly Weed	<i>Asclepias tuberosa</i>	Large leaves.
Footall Fern	<i>Asparagus densiflorus 'Meyers'</i>	Not a true fern. Tough, green, attractive
Lace Fern or Asparagus Fern	<i>Asparagus setaceus</i>	Not a true fern. S. & E. Africa. High humidity & heat in forest. Will climbvertical surface. Berries toxic.
Marigold, Desert	<i>Baileya multiradiata</i>	Daisy-like flowers top a tuft of fuzzy leaves all year w/water except extreme cold. Attracts butterflies & bees.
Sundrops or Primrose, Tucson Sun	<i>Calypophus berlandieri 'Tucson Sun'</i>	Nectar from 2.5" flowers attracts butterflies & hummingbirds. Heat resistant Native
Spider/Airplane Plant, variegated	<i>Chlorophytum comosum</i>	
Damianita	<i>Chrysactinia mexicana</i>	Shear early spring for dense growth. Fragrant foliage
Dalea, Indigo Bush, Trailing	<i>Dalea greggii</i>	Evergreen groundcover attracts butterflies. Cold & drought tolerant
Mooreflower, Sacred Datura	<i>Datura wrightii</i>	
Dyckia, Tarzan	<i>Dyckia 'Tarzan'</i>	Bromeliad, not a succulent. Hybridized by Bill Baker.
Flasbane, Spreading	<i>Eriogon diversgens</i>	
Gaura/Whirling Butterflies	<i>Gaura lindheimeri</i>	
Lantana, Bush 'Gold Mound'	<i>Lantana camara 'Gold Mound'</i>	Mounding root hardy form. Hard prune after frost in spring. Butterflies.
Lantana, Trailing - Purple	<i>Lantana montevidensis</i>	
Daisy, Blackfoot	<i>Melampodium leucanthum</i>	Daisy-like flowers on short-lived shrublets that need very good drainage. Butterflies. Deadhead to tidy appearance.
Geranium, Zonal	<i>Pelargonium v. hortorum</i>	
Penstemon, Firecracker	<i>Penstemon eatoni</i>	Low-growing, shrubby, dk. green evergreen foliage. Hummingbirds.
Penstemon, Parry's	<i>Penstemon parryi</i>	Biennial AZ native. .75" tubular flowers on bluish-green leaves. Feast for hummingbirds.
Sage, Jerusalem	<i>Phlomis fruticosa</i>	Woolly gray leaves & 1" flower whorls on erect stems; Mediterranean
Paperflower, White Stem	<i>Palisotrophe cooperi</i>	Common but showy plant. Flowers persist after blooming, then turn tannish-yellow and papery in appearance. Sonoran & Mojave native.
Ruellia/Mexican Petunia	<i>Ruellia brittoniana</i>	Silver-blue flowers lasting one day. Butterflies.
Mallow, Globe	<i>Sphaeralcea ambigua</i>	
Bird of Paradise, Exotic, Tropical	<i>Streptelia reginae</i>	
Mexican Taragon	<i>Tagetes lucida</i>	Psychoactive herb
Sunflower, Mexican	<i>Tithonia fruticosa</i>	
Spiderwort, Purple Heart	<i>Tradescantia pallida 'Purpurea'</i>	AKA Wandering Jew/Dude
Verbena, Gooding's	<i>Verbena goodingii</i>	
Verbena, Moss	<i>Verbena tenuisecta</i>	
Bee Bush	<i>Aloysia gratissima</i>	
Bee Bush, Wright's	<i>Aloysia wrightii</i>	deciduous
Honeysuckle, Wright's Desert; Hummingbird Bush;	<i>Anisacanthus quadrifidus var. wrightii</i>	TX native. Upright, deciduous, with 1.5" trumpet-like flowers. Cut back in winter.
Mexican Flame	<i>Bougainvillea 'LaJolla'</i>	Climbing or spreading shrub that can be pinched back for a fuller appearance.
Bougainvillea, LaJolla Bush	<i>Bougainvillea 'Barbara Karst'</i>	Climbing shrub
Bougainvillea 'Barbara Karst'	<i>Buddleia marubifolia</i>	Small globe-shaped flowers are attractive to butterflies as a rich source of nectar. Informal growth habit doesn't conform to a prescribed geometrical shape. Use in xeric landscapes, butterfly gardens, or around pools and water features.
Butterfly Bush, Woolly Orange	<i>Caesalpinia gilliesii</i>	Graceful "lenny" leaves on few main stems. 4.5" blossoms with long, red stamens.
Bird of Paradise, Yellow	<i>Caesalpinia mexicana</i>	AZ native. Multi-jointed w/ fine-textured brt. green leaves and 3 to 6" racemes. Can be evergreen when mild; heat tolerant. Hummingbirds & butterflies.
Bird of Paradise, Red/Pride of Barbados	<i>Caesalpinia pulcherrima</i>	
Fairy Duster, Baja/Red	<i>Calliandra californica</i>	Evergreen, woody shrub with bipinnate leaves, native to Baja California, Mexico. Flowers shaped like mini-feather dusters. Hummingbird magnet.
Fairy Duster 'Maricopa Red'	<i>Calliandra californica x eriophylla</i>	
Chiltepin	<i>Maricopa Red</i>	
Cassia, Silvery	<i>Capiscum annuum</i>	Earliest form of chile from S. America. Fruit in Fall smaller than peas but hot. Birds for fruit, sphinx moth larval food.
Dalea, Black	<i>Cassia phyllodinea</i>	
Brittlebush	<i>Dalea frutescens 'Sierra Negra'</i>	Rounded mound of evergreen fine-textured grey-green foliage w/ masses of flowers that attract bees. Well-drained soil, and be careful not to over-water. Dogface butterfly larval food.
Mormon Tea	<i>Encelia farinosa</i>	AZ native with 2" blossoms. Butterflies.
Buckwheat, Desert/Mojave, California	<i>Ephedra viridis</i>	Skinny stems, mostly leafless, branch from base. Good in caliche.
Chuparosa	<i>Eriogonum fasciculatum</i>	
Honeysuckle, Mexican	<i>Justicia californica</i>	Sprawling
Creosote Bush	<i>Justicia spicigera</i>	tough
Ranger, Texas Thunder Cloud	<i>Larrea tridentata</i>	AZ below 4500'. Fine-textured, shiny evergreen leaves. Foliage fragrant after rains. Many medicinal uses.
Ranger, Texas Convent	<i>Leucophyllum candidum</i>	
Ranger, Texas Heavenly Cloud	<i>Leucophyllum frutescens 'Convent'</i>	Silvery green leaves.
Sage, Woody Jerusalem - compact	<i>Leucophyllum frutescens x laevigatum</i>	
Pyracantha, Scarlet Firethorn	<i>Phlomis lanata</i>	attracts hummingbirds and finches
Pyracantha, Firethorn	<i>Pyracantha coccinea</i>	
Pyracantha, Victory	<i>Pyracantha fortuneana 'Cherry Berry'</i>	
Coral Fountain, Red/St. Elmo's Fire	<i>Pyracantha koidzumii 'Victory'</i>	Thorny evergreen can be on trellis. Red berries in fall attract birds.
Sage/Salvia, Cleveland's Chaparral	<i>Russelia equisetiformis</i>	Hummingbirds and butterflies; wonderful desert-adapted plant. Tubular flwrs; cascades.
Sage/Salvia, Desert Purple	<i>Salvia clevelandii</i>	.75" flowers. Hummingbird & Butterfly. Not eaten by wildlife.
Sage/Salvia, Autumn Sage	<i>Salvia dorei</i>	
Sage/Salvia, Lipstick	<i>Salvia greggii</i>	Attracts hummingbirds
Sage/Salvia, Autumn Purple	<i>Salvia greggii 'Lipstick'</i>	
Sage/Salvia, Mexican Bush	<i>Salvia greggii 'Purple'</i>	Attracts hummingbirds
Sage/Salvia, 'Hot Lips'	<i>Salvia leucantha</i>	Chenille-like sprays of flowers. Prune early summer; remove old flwr clusters to decrease wt on stems.
Senna, Feathery Cassia, Silver Cassia	<i>Salvia microphylla</i>	Rounded broadleaf evergreen shrub. Attracts hummingbirds and finches
Senna, Cove's Cassia	<i>Senna artemisioides</i>	Evergreen, eye-catching leathery gray-green foliage
Senna, Shrubby or Canyon	<i>Senna covesii</i>	Short, rigid, leafy branches are lined with compound foliage arranged spirally on spurs. Winter deciduous. Leafs out in late Spring. Large, yellow flowers crowd together in 6 in. clusters at the end of the branches. A long, flat, dark-brown pod succeeds the flowers. Prune for shape in late winter or leave natural. Avoid shearing. Larval food plant for Cloudless Sulphur.
Marigold, Mt Lemmon	<i>Senna wislizeni</i>	
Honeysuckle, Cape	<i>Tagetes lemmonii</i>	Fragrant foliage w/profuse blooms
Yellow Bells, Arizona	<i>Tecoma capensis</i>	Attracts hummingbirds. S. Africa native
Yellow Bells, Gold Star	<i>Tecoma stans v. angustata</i>	
Adenium, Desert Rose	<i>Tecoma stans v. angustata 'Gold Star'</i>	Evergreen, rich green leaves. 2x2" trumpet-shaped flowers form lq. clusters. 6" long tan pods house papery-winged seeds. Prune early Spring. Attracts bees & hummingbirds
Agave, Blue Glow	<i>Adenium arabicum</i>	Water in summer growing season only; no water in winter dormancy. Similar to obesum but with a larger, latter caudex
Agave, Americana, Century Plant	<i>Agave 'Blue Glow'</i>	beautiful in sunlight
Agave, Americana/Century Plant	<i>Agave americana</i>	Blue-ish leaves; fast grower, pups frequently.
Agave, Century Plant	<i>Agave americana 'Marginata'</i>	Yellow stripes along the edges of each leaf. Typically lives 10 to 30 years. Near the end of life, the plant sends up a tall, branched stalk of yellow blossoms reaching up to 25-30 ft tall.
Agave, Americana/Century Plant, White-Striped	<i>Agave americana medio-picta</i>	
Agave, Century Plant variegated	<i>Agave americana medio-picta 'Alba'</i>	Variegated dusty blue-green leaves with a wide creamy center stripe. Fast grower, pups frequently.
Agave, Foxtail	<i>Agave americana variegata</i>	AKA Agave marginata. Yellow leaf margins.
Agave, Cow's Horn	<i>Agave attenuata</i>	
Agave, Red Cow	<i>Agave bovicornuta</i>	Cinnamon opposing teeth resembling the horns of a cow create intricate, highly visible bud prints on broad spoon-shaped deep green leaves.
Agave, Hohokam	<i>Agave bovicornuta x colorata</i>	
Agave, Dwarf Cow Horn	<i>Agave chrysantha x murpheyi</i>	
Agave, Smooth	<i>Agave cupreata</i>	Non-suckering. Dark copper spines & wavy margins.
Agave, King Ferdinand	<i>Agave desmettiana</i>	Blooms once, then dies.
Agave, Thread-Edge	<i>Agave ferdinand-regis</i>	Dense, compact habit: short, stout leaves are dk. green w/whit markings, no teeth along edges, but very sharp terminal spine.
Agave 'Crème Brulee'	<i>Agave filifera</i>	Forms clusters up to 3'. Leaves have white bud prints on top & bottom sides; no marginal teeth; thin, curly wht. Fibers along leaf edges.
Agave, Gypsum century plant	<i>Agave outenacola</i>	
Agave, Small Lettuce	<i>Agave gypsophilla</i>	
Agave, Center Striped	<i>Agave lechuquilla</i>	Found only in the Chihuahuan desert
Agave, Quadricolor, Variegated Holly	<i>Agave lophantha</i>	
Agave, Holly	<i>Agave lophantha 'Quadricolor'</i>	Offsets
Agave, Murphy's Yellow Striped	<i>Agave lophantha 'Solendoid'</i>	
Agave, Sharkskin	<i>Agave murpheyi 'Rodney'</i>	
Agave, Whale's Tongue	<i>Agave nickelsiae x scabra</i>	Thick, rigid, dk. olive green leaves with a rough surface & a continuous black margin that extends into the terminal spine. Offsets.
Agave, Artichoke/Parry's	<i>Agave ovalifolia</i>	Solitary, with broadly ovate silvery blue leaves with a longitudinal cup shape on the upper surface. Soak roots every 1-2 weeks in warm season.
Agave, Dwarf Artichoke	<i>Agave parryi</i>	Rosettes resembling an artichoke. Leaves blue-gray or lt. gray whiteth on leaf margins, and 1" long dark brown stout terminal spine.
Agave, Parry's Huachuca	<i>Agave parryi var. truncata</i>	Broad, blue-gray leaves bluntly rounded at tip w/ wavy 1" long terminal spine.
Agave, Butterfly	<i>Agave parryi, v. huachuensis</i>	High desert plant found at 5000-7000 feet in Southern AZ and the Mexican state of Chihuahua
	<i>Agave potatorum</i>	AKA Verschaffeltii variegated. 20' flower spike

Agave, Butterfly Dwarf	<i>Aqave potatorum</i> 'Kichiokan'	Variegated with red spines.
Agave, Dragon Toes	<i>Aqave pygmaea</i>	
Agave, Lions Mane	<i>Aqave titanota</i>	
Agave, White Ice	<i>Aqave titanota</i> 'White Ice'	
Agave, Queen Victoria	<i>Aqave victoria-reginae</i>	Dense, compact habit: short, stout leaves are dk. green w/wht markings, no teeth along edges, but very sharp terminal spine.
Agave, Octopus	<i>Aqave vilmoriniana</i>	Deeply clefted, arching, frequently twisting leaves. Thousands of small plantlets on the flower stalk.
Agave, Weber's/Smooth-Edged	<i>Aqave weberi</i>	Upright evergreen broadleaf
Aloe, 'Blue Elf'	<i>Aloe 'Blue Elf'</i>	
Aloe, Curled Leaf, Candelabra	<i>Aloe arborescens</i>	
Aloe, Aloe Vera	<i>Aloe barbadensis</i>	Medicinal Aloe
Aloe, short leaved	<i>Aloe brevifolia</i>	S. African native. White spines. Grows in clusters.
Aloe, Starfish or Red	<i>Aloe cameronii</i>	Upright stems of open rosettes to 1 to 2 feet with lax narrow leaves that are medium to dark green and that turn a beautiful coppery red in summer.
Aloe, Spider	<i>Aloe humilis</i>	
Aloe, Soap	<i>Aloe maculata</i>	
Aloe, Gold Tooth/Spider	<i>Aloe nobilis</i>	Low-growing, heavily suckering clustering aloe. Large pendulous, bright orange-scarlet, tubular blooms. Blue-green leaves are bordered by short translucent white marginal "teeth" and irregularly spaced bumps (tubercules) arranged in tranverse rows on both the upper and lower surfaces.
Aloe, Soap	<i>Aloe saponaria</i>	
Aloe, Coral	<i>Aloe striata</i>	
Aloe, Partridge Breast or Tiger	<i>Aloe variegata</i>	Rosettes or clusters
Mother of Thousands	<i>Bryophyllum daigremantian</i>	
Watch Chain	<i>Crassula muscosa</i>	
Jade, Money Tree	<i>Crassula ovata</i>	
Jade, Gollum	<i>Crassula ovata</i> 'Gollum'	Finger-like leaves with cup-like tips.
Fat Bastard	<i>Cyphostemma juttee</i>	Fat trunk with shaggy bark & huge leaves. Red fruits in grape-like bunches in summer.
Sansevieria, Mother in law's Tongue	<i>Dracaena trifasciata</i>	Native of West Africa. Formerly Sansevieria trifasciata
Echeveria, Lipstick	<i>Echeveria acaevoides</i>	
Euphorbia, Desert Candle	<i>Euphorbia abyssinica</i>	Yellow bracts. Principal tree succulent in NE Africa.
Candellia	<i>Euphorbia antisiphilitica</i>	provides interest and texture
Euphorbia, Medusa/Pine Cone	<i>Euphorbia buxifolia</i>	
Slipper Plant, Pedicularis	<i>Euphorbia lomali</i>	Numerous upright semisucculent stems. Slipper-shaped 1" flowers. Hummingbirds.
Euphorbia, Candelabra Tree/ Crown of Thorns	<i>Euphorbia mlili hybrid</i>	
Euphorbia, Indian Tree	<i>Euphorbia nivulia crest</i>	Widespread in India. Milky sap has multiple uses.
Euphorbia, Baseball Plant	<i>Euphorbia obesa</i>	Round shape.
Euphorbia, Snowflake	<i>Euphorbia polycarpa</i>	Clumps of unequal length upright columns. Little fuzzy balls on top of the plant open into flowers.
Moroccan Mound/Resin Spurge	<i>Euphorbia resinifera</i>	Hottest on Scoville scale of all succulents. Wildlife will NOT eat!
Euphorbia, Gopher Plant	<i>Euphorbia rigida</i>	great movement, toxic to pets
Euphorbia, Sullu or Royl's	<i>Euphorbia royleana</i>	
Euphorbia, Pencil Tree, Fire Stick	<i>Euphorbia tirucalli</i>	
Euphorbia, African Milk Tree	<i>Euphorbia trigona</i>	
Ocotillo	<i>Fouquieria splendens</i>	Hard to transplant
Lavender Pebbles	<i>Graptopetalum amethystinum</i>	
Haworthia, Zebra	<i>Haworthia attenuata</i>	
Haworthia	<i>Haworthia venosa</i> ssp <i>tessellata</i>	
Red Yucca	<i>Hesperaloe parviflora</i>	Not a true yucca. Multiple flower stems.
Huernia Nova McCoy	<i>Huernia nova 'McCoy'</i>	Very small yellow flowers with burgundy spots. No winter watering. Formerly Stapelia nova 'Ethiopia McCoy'
Kalanchoe, Mother of Thousands	<i>Kalanchoe daigremontiana</i>	Believe it! Cardiac glycoside daigremontianum: keep from children, pets, cattle.
Kalanchoe, Mother of Millions	<i>Kalanchoe delagoensis</i>	
Kalanchoe, Paddle Plant	<i>Kalanchoe luciae</i>	
Kalanchoe, Panda plant	<i>Kalanchoe tomentosa</i>	
Living Rocks	<i>Lithops</i>	
Pachypodium, Elephant's Trunk	<i>Pachypodium namaquanum</i>	Fruits are horn-like with twin pencil-thin tapering capsules up to 2" long.
Elephant's Food/Bush, 'Spekboom'	<i>Portulacaria afra</i>	AKA Miniature Jade Plant. Propagates easily from cuttings. Regular water in hot months.
Elephant Food/Bush, 'Rainbow'	<i>Portulacaria afra variegated</i>	AKA Miniature Jade Plant. Propagates easily from cuttings. Regular water in hot months.
Scilla	<i>Scilla maculata</i>	
Burro Tail	<i>Sedum morganianum</i>	
Starfish Flower	<i>Stapelia grandiflora</i>	
Stapelia, Burgandy Bells	<i>Stapelia leederzii</i>	
Hackberry, Desert or Spiny	<i>Celtis ehrenbergiana</i>	Formerly Celtis pallida. Extremely drought tolerant, spiny, sprawling shrub of the Sonoran and Chihuahuan Deserts occurs along washes and gravelly slopes. Its stout thorns, dense branches, and sweet, edible, one-seeded small orange berries in the fall make it extremely valuable for wildlife food and cover. The small, inch-long, oval leaves are evergreen to 20 degrees F, and its smooth, gray branches grow in a zigzag pattern.
Hackberry, Canyon Nettle	<i>Celtis reticulata</i>	Attracts over 30 species of birds, big butterfly larval host, slow growing unless given lots of water (then fast!)
Desert Willow	<i>Chilopsis linearis</i>	
Lime, Mexican Thornless	<i>Citrus aurantifolia</i>	
Pachypodium, Madagascar Palm	<i>Pachypodium lamerei</i>	Stem succulent.
Palo Verde, Foothills	<i>Parkinsonia microphylla</i>	AZ native. Young seeds edible (legume). Attracts bees
Mesquite, Velvet	<i>Prosopis velutina</i>	Sonoran native. Excellent wildlife plant.
Acacia, Catclaw	<i>Senegalia oreoqi</i>	Formerly Acacia oreoqi. Flowers fuzzy & elongated; flat brown curved seedpods hang in clusters. Branches have small, curved clawlike thorns.
Acacia, Sweet	<i>Vachellia farnesiana</i>	Formerly Acacia constricta. Naturally spreading multi-stemmed small tree/shrub w/ deciduous twice-compound leaves, puffball flowers, slender brown constricted seedpods, paired 1-inch long white thorns on new growth. AZ native 1500-6500 feet. Butterflies & bees.
Acacia, Black Brush	<i>Vachellia rigidula</i>	architectural form, deep green
Chaste Tree, Monk's Pepper	<i>Vitex agnus-castus</i>	Self-seeding. Attracts butterflies.
Crossvine, Tangerine Beauty	<i>Bignonia caprolata</i>	
Fig Vine, Creeping	<i>Ficus pumila</i>	
Jasmine, Pink	<i>Jasmine polyanthum</i>	
Honeysuckle, Hal's Japanese	<i>Lonicera japonica 'Halliana'</i>	
Cat's Claw Vine	<i>Macfadyena unguis-cati</i>	Fine textured, fast growing, partly deciduous vine. Long slender stems can attach to nearly any surface with hooked, claw-like forked tendrils. 2" Trumpet-shaped flowers.
Rose, Lady Banks yellow	<i>Rosa banksiae</i>	AKA Tombstone Rose. Thornless, nearly evergreen. Double 1-1.5" violet-scented flowers.
Jasmine, Star or Confederate	<i>Trachelospermum jasminoides</i>	Evergreen vine with thick, leathery, dark green leaves & fragrant clusters of star-shaped flowers.
