

# Make a Spiral Holiday Tree

Work with your child to cut out and color a spiral holiday tree. Start by having your child color inside the black lines and ornaments. Get creative and make the tree special by adding your own decorations! If you feel comfortable, have your child use scissors to cut along the solid black lines. Fold along the dotted line. Put a string through the hole by the star. Hang the tree for all to see!

**CAUTION** Cut out the tree under adult supervision. Use safety scissors if you can.

This fun activity can help your child work on:

- Hand-eye coordination
- Problem-solving skills
- Imagination and creativity

The University of Arizona Cooperative Extension offers **FREE** developmental screenings. To schedule your free appointment, contact **Thuy Bishop** at (520) 907-0724 or (tbishop@arizona.edu). Visit <https://tinyurl.com/UofADSS>
