Smartscape Program Testimonial – February 2015:

I completed the Smartscape program in the late 90’s as a landscape construction crew leader. The training helped me realize the importance of efficient water use in the landscape and reinforced what I was already learning firsthand about water conservation. I now work as a conservation programs manager in northern Utah where reducing outdoor water use is key to achieving the state’s water conservation goal. I credit Smartscape with my initial interest and training in outdoor water conservation.

Thanks,

Courtney Brown / Conservation Programs Manager
